Commissioner Yerkes Conducts Personal Investigation—Asks for Four Resignations.

Wyatt Building, 16th and F Streets.

Washington, Aug. 14.—There has been a big shake-up among the revenue agents of the internal revenue service, but just how far it has gone is a matter of speculation. It is stated, however, that four well-known revenue agents have been asked for their resignations, and at least two of the four have come on here for a personal conference with Commissioner Yerkes of the Internal Revenue Burcau. These are Captain Charles S. Ingram, in charge of New England work, stationed at Boston, and C. H. Burg, who has had a section of the Southwest under his charge and has been located in Texas. The names of the other two agents who are in trouble could not be learned this afternoon. Commissioner Yerkes has manifested indisposition to discuss the matter in any form.

manifested indisposition to discuss the matter in any form.

It is stated that the shake-up is entirely the work of the commissioner; that he has written the letters asking for the resignations and has attended to all the correspondence, not olacing it in the hands of the chief of the revenue agents or any one else. The letters were sent out about ten days ago.

Those in position to know say that Commissioner Yerkes has personally been watching the work of the revenue agents, who are really the secret investigating officials of the revenue bureau, and has concluded that some of them have not been doing their duty in detecting some of the things going on.

The Oellien property adjoins the present school building and the directors wanted about one acre of it for the new school and additional playgrounds. There was a disagreement on price and condemnation proceedings were instituted.

The defendant contended that the improvements were not authorized, because they had been authorized only by a majority of the citizens and property owners who attended the annual school meeting last April and not by a majority of the citizens and property owners of the district. The point was sustained by Judge McElhinney.

ROBBERIES CHARGED

George Moody, Becently Released From Penitentiary, Identified by -Secondhand Men as Man Who Sold Stolen Articles.

George Moody, alias Frank Merrill, who was released from the Jefferson City Penflentiary on June R, was arrested yenterday on suspicion of hurgiary. He has been identified, the police say, by three men to whom he gold articles which are known to have been stoles. To one of these he is said to have sold twenty stoles watches. On June S a burgiary of a tool box at a stone quarry in North R. Louis was reported to the police. Almost daily since then similar reports have been made. When Burthardt and his gang of alleged rooming-hous thieves were arrusted two weeks ago the police hoped that they had solved the mystary of the missing tools, but careful inventigation dispreved this, and the fact that the peculiar series of burgiaries continued indicated that, another burgiar was operating in this line. With the arrest of Moody, which was made by Special Officers Caliahan, Frank, Cremins and McFarriand of Chief Dechand's staff, were recovered several costly stonemason's tools, and more than \$60 worth of plusder was found in second-hand shops.

Frank Hutzman, who keeps a second-hand shops at No. IIII Mrogan street, identified Moody as one who had sold him twenty watches on two occasions and several stonecutier's tools on another.

IDENTIFIED BY THREE MEN.

Moody also was identified by Harry Stein of No. 512 North High street, where he has a secondhand store. Stein declared that Moody had sold him tools on four different occasions, all of which are supposed to have been stolen. Isaac Rotsky of No. 132 Market street identified Moody as one from whom he had bought tools on three occasions.

In Moody's pocket at the time of his arrest was found a key tag bearing the name of P. Ross and the address. No. 578 Chouteau avenue. Investigating the records, the police say, it was found that this saloon had been robbed on Saturday night and \$15 in cash, a bicycle, several bottles of whisky and a bunch of keys bearing this tag were stolen.

Among those who, it is said, have reported the loss of tools by having their loxes at their quarries robbed are Gus. A. Bauer of No. 323 Missouri avenue, William C. Grace of No. 323 Clark avenue and John Ready of No. 333 Clark avenue and John Ready of No. 335 Clark avenue and John Ready of No. 335 Clark avenue. The police are engaged in a canvass of the secondhand stores and pawnshops in the effort to find more stolen plunder, as they say they have not yet recovered one-tenth of the property reported stolen for which they believe Moody is responsible. The police are trying to connect Moody with the burgiary of a tool box at 232 Montgomery street, from whence David Shelly reports that a set of stonecutter's tools, containing about twenty pieces, was stolen.

They also hope to establish Moody's

tools, containing about twenty pieces, was stolen.

They also hope to establish Moody's guilt in the burgiary of a tool box at the stone-cutting establishment of A. H. B. Owenkamp at No. 32 South Grand avenue, who reported the loss of thirty-three chisels and several hammers.

The jewelry store of Louis Lippe at No. 225 Chouteau avenue was burglarised on August 5 and sixteen watches taken, and the police think that Moody is responsible for this and also for burglaries committed at the pawnshops and secondhand stores of Frank and George Goodman at Nos. 715 and 713 Market street. From these places twenty-six watches and twenty-ux pairs of new shoes were stolen.

He had with him a toy drum, which he hugged with a determination to move that precious plaything, no matter what happened to the rest of the household goods.

At the Central District Station, where he was held to await his parents, he said that his father had lived at No. 1504 Washington avenue and that when his parents left they told him to ride over in the next wagoniond of furniture.

This, he says, the driver refused to allow him to do, so he set out to follow the wagon on foot. He could not keep up, however, and when the wagon disappeared he wandered almiessly about until taken in charge by a policeman.

WONDERFUL CURE BY CUTICURA REMEDIES

"My little son, a boy of five, broke out with an itching rash. Three doc-tors prescribed for him, but he kept getting worse until we could not dress him any more. They finally advised me to try a certain medical College, but its treatment did no good. At the time I was induced to try Cuticura he was so bad that I had to cut his hair off and put the Cuticura Ointment on him on bandages, as it was impos-able to touch him with the bare hand. able to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heart-breaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. Now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day.
